

# THE GLEICHEN CALL

TWENTY-SIXTH YEAR

NO. 43

GLEICHEN, ALBERTA, WEDNESDAY JANUARY 11, 1933

SUBSCRIPTION \$2.00 PER YEAR

## LOCAL HOCKEY TEAMS HAVE WINNING STREAK

Monday night's hockey exhibition at the arena with Strathmore resulted in a score of 4-4 for the Games. The score did not change until the third period when the boys were not in the lead. The play was at one end as much as the other, except for several minutes in the third when Strathmore could not get over their bus line. Both sides did a lot of long shooting, with some scoring most of it which made picture perfect for the spectators.

In the first half of the third Robert was called upon to save several hot ones while Reaves for Strathmore had none of the hot variety.

Si McKay made the first center when he switched the puck from the two Strathmore defensemen to himself. He got it from the face off after the first corner. Johnstone by a long shot and scored, goal number two. Shortly after Johnstone took a trip to the cooler to think things over and while contemplating life of a hockey player he got a shot and scored goal number three. The last ten minutes the game slowed up considerably, the soft ice playing out both sides. In the second C. Brown adjourned to the penalty box. Some time later Balmer and Tom Evans came in to take the place of the first players. The play and getting through scored goal four by the first named goals. This play brought a great laugh from the crowd. Tom Johnstone took another penalty. The period was fast, with Strathmore having a good start, winning by a long man attack on several occasions. The period was rough. McGregor and Simpson took an enforced rest in the penalty box at the same time. Robert was called upon to save several hot ones and success fully did his job.

W. Gage of Strathmore and Al Wilson of Gleichen handled the game. Approximately 400 people saw the game.

The Midgets played the Bassano Javelins at Bassano Saturday. The game was good and the game was fast. In two minutes of the first period Beauchamp scored a counter with Norman Schneidt assisting. About six minutes later Norman Schneidt and a counter with R. Desjardins in the second period. A Bassano boy, Ray Smith scored and near the end of the period he scored again. Norman Schneidt and Eugene Lester also made a counter in the second with Bob Miss assisting. Lester's goal in the second period after a save by a Bassano boy.

Bassano, Jimmy, Nester, Arisian, Ford, Remond, Casper, Smith, Macquarie, Stiles, Gaylord.

Gleichen, Bogart, Letnicki, Schopf, C. Clifford, McLean, Mass and Lester.

Rapid development in the use of concentrated sour milk made from skim milk for poultry feed, promises a new rich market for the farmer's surplus skim milk, according to a recent statement. Last year more than 500,000 tons of concentrated sour milk for poultry feed was produced, costing about 25.00 tons of powdered sour milk and 10,000 tons of casings. It is said that the equipment for concentrating sour skim milk may be installed, by almost any creamery. This product promises to become an important factor in providing an added source of income to the dairy farmer who is unable to use all his skim milk for his own hog and poultry.

A paint company chemist has invented an emergency soap which does not require water. This is probably the soap for which most boys have so long been wishing.

## DASHES FROM CRAIGANTLER AND DISTRICT

After all the good programs during the holidays the children are hard at work under Miss Harrow having got over her illness.

The annual school meeting of Craigantler was held in the school last Saturday, January 7th. Mr. L. Schlegeman was elected as trustee to their fathers' work. It is the hope that they may do better than dad done.

Not that they feel father has failed.

Most of them probably would admit he has done pretty well in his way.

But naturally, he grew up in a comparatively backward way. Why, when he was ten years old he didn't know the difference between a parrot-eater and a parrot. He was a good boy, but he lacked the kind of educational opportunity a boy gets today.

Stony Range has been acting as taxi driver for some of the ladies of the U. E. W. A. for the past two weeks. Jim is getting to be very popular with some of the fair sex.

## FLOWERS FOR THE YEAR

(Experimental Farms Note)

In the cold days of winter it is interesting to make plans or the garden in the spring, so that as spring comes the work can be started with the minimum of effort.

If the shrubby border has become overcrowded, spring is a good time to transplant some of the bushes so as to leave plenty of room to others to grow to their full height.

Soil should be loosened as far as possible and that the soil in new location should be large enough that the roots can be spread out. Soil at the bottom of the hole should be dug out at least a foot.

If the old soil is very poor, a new soil should be used.

Some of the shrubs are propagated by division and spring is a good time to do this. Spruce was fibrous i one that can be divided easily.

The common leatherleaf will need some attention at this time. First, all dead stems and leaves should be removed and delphinium, perennial asters and phlox and other late blooming plants should be lifted and stored, necessary. Aster and phlox are the most popular flowers.

If they are to look in the same position, fresh soil should be put in or some well rotted manure or sheep manure mixed in the soil so that the bed between the plants can be lightly dug or raked after removing all weeds. If there are bulbs and the places where they are planted are not carefully marked out it is likely to cut off the tips of the leaves and damage the flower buds of the ground. Seedlings that have been wintered over in cold frames can be planted out in their permanent position as soon as the frost is out of the ground.

In the central experimental farm, the common tulips and tulip trees are now in bloom and the tulip trees in the bed between the plants can be lightly dug or raked after removing all weeds. If there are bulbs and the places where they are planted are not carefully marked out it is likely to cut off the tips of the leaves and damage the flower buds of the ground.

Seedlings that have been wintered over in cold frames can be planted out in their permanent position as soon as the frost is out of the ground.

Almost everybody in town listened in Saturday night to the game played in Toronto with Detroit. The reason was Doug Young, the Gleichen player was playing with Detroit. All the Gleichen fans were cheering him on and the game was a real thrill but the game was so close that the listeners were disappointed.

All figured if the game had been won he would have been heard of Doug.

The Moosewood Hockey and Athletic Club invite all to attend their dance at Moosewood, January 27.

The Midgets will entertain the Basano Juveniles at the local arena Friday evening at 7:30. The price of admission will be 15c, 15c and 10c. The Midgets want everybody who possibly can to attend this game and promise to give the spectators an

especially good-entertained evening for their audience now, justified in boys a new respect for the fashions and philosophies of other days, but the fact seems to be that something more than old-fashioned hero-worship is inspiring them to take up their fathers' work. It is the hope that they may do better than dad has done.

Not that they feel father has failed.

Most of them probably would admit he has done pretty well in his way.

But naturally, he grew up in a comparatively backward way. Why, when he was ten years old he didn't know the difference between a parrot-eater and a parrot. He was a good boy, but he lacked the kind of educational opportunity a boy gets today.

Stony Range has been acting as taxi driver for some of the ladies of the U. E. W. A. for the past two weeks. Jim is getting to be very popular with some of the fair sex.

## WHAT THE HOCKEY BOYS ARE DOING

(Experimental Farms Note)

In the cold days of winter it is interesting to make plans or the garden in the spring, so that as spring comes the work can be started with the minimum of effort.

If the shrubby border has become overcrowded, spring is a good time to transplant some of the bushes so as to leave plenty of room to others to grow to their full height.

## ADOLPHE PLANTE OLD TIMER DIED FRIDAY

Gleichen lost another old timer with the death of Mr. Adolphe Plante at the age of 82 years, who passed away Friday morning Jan 6th. Mr. Plante had been ailing for sometime. The funeral took place at the Gleichen Cemetery after a requiem high mass was sung in St. Victor's Church. The service being conducted by Rev. Father John O'Neil, who bestowed tokens in the form of spiritual offerings. It is difficult to express in words the gratitude of the heart on occasions like this, but we hope that those concerned may find in the hearts the sentiments that we are unable to express.

WILFRED, WALTER AND AMIE

PLANTE.

Thurston, Mrs. L. Pritchard, United Church Sunday School and Young peoples, Nakoda, Young Peoples, Gleichen Lodge, A. F. & A. M., Gleichen Order of the Eastern Star.

## CARD OF THANKS

We wish to thank all the kind friends who so generously offered and gave their valuable services during the illness and death of our beloved friend. We wish to thank all the mutual relatives of friends at the funeral service and to the kindly friends who bestowed tokens in the form of spiritual offerings. It is difficult to express in words the gratitude of the heart on occasions like this, but we hope that those concerned may find in the hearts the sentiments that we are unable to express.

WILFRED, WALTER AND AMIE

PLANTE.

## STRANGE WAYS OF THE CHINESE

A Chinese book begins at the last page and ends at the bottom of the first page.

The Chinaman keeps out of step when walking with you.

Eats his dessert first.

Uses a compass that indicates south.

Breaks his hand with himself.

Reads while mourning.

Speaks the same language as the Japanese, but speaks another.

Pants eyes on his slugs so that they may see.

Wears gowns while the women wear trousers.

English woolen stockings made

of silk have been converted into artificial wool, suitable for the manufacture of blankets and other heavy fabrics.

Under the auspices of the United Church Women's Association

## WORLD HAPPENINGS BRIEFLY TOLD

The Free State Department of Education estimates it will take 20 years to make the Free State bilingual to the same extent as Canada.

A Royal Canadian Mounted Police training station is to be established in Halifax. About 25 men a month will be graduated at Wellington barracks.

The hottest day in two years was recorded in Moscow, Russia, when the temperature reached 30.5 degrees Fahrenheit on December 31. One case of sunstroke occurred.

The ending of Soviet Russia's first five-year plan and the beginning of the second plan has been acclaimed at Moscow, Russia, by the Soviet press.

The Chinese Government has placed a herd of elk on a 285-acre reserve near Petawawa, with the intention of ultimately stocking the forests with them.

Dr. W. W. Yen, head of the Chinese delegation to the League of Nations during the past year, was appointed ambassador to Russia by the Nationalist government.

Another of the problems that British Columbia has been solving. The first cheque ever written in "Braille" has been cashed by the Bank of蒙特利尔 Company at New York.

A collection of portraits of members of all the royal families of Europe is to be left to the British Museum. It has been compiled by Miss Thomas Brundish, now more than 80 years old.

A former chief of Blis Carron, the post whose holder is in Forest Hill cemetery in Fredericton, has arrived from British Columbia and will be placed in the library of the University of New Brunswick.

### Eyes and Nervous Strain

**Trying to See In Bad Light Causes Waste of Energy**

You waste energy and energy when your eyes are strained by trying to see in bad light, reported Doctor M. Luckless and Frank Moss at a session of the American Association for the advancement of science.

Nervous muscular tension of a man reading in bad light causes decrease in direct proportion to the amount of light falling on the book.

A possible aid to study of disease discovery of the organism that apparently plays a leading part in producing cancer in plants was described by Dr. Michael Levine, of Montevideo, Uruguay, recently.

The organism he has isolated seems to be what causes cells of a plant to multiply rapidly and produce a tumor. Human cancer results from similar abnormally fast growth of cells, but the organism that causes it is not known.

Study of how the organism works, said Dr. Levine, may throw some light on the cancer problem in general.

### Unusual Law Suits

**Judge In Scotland Puzzled Over Case About Bees**

Because a swarm of bees alighted on the land of Henry Gow, of Dumfries, Scotland, Peter Coutts has twice sued Gow. The first time he sued Gow for £100 damages for the loss of his bees. At the end of the honey season he demanded the price of honey which he said he would have had if Gow had sent the buzzers home. Gow claims that in their first season in a new home bees do not produce honey so that he reduced the cost of feeding them. The puzzled judge postponed the case to think it over.

### Perfect Book Is Short

**Opinion Given By Prince George Is Address At London**

Prince George, functioning as a bocceur for footballers when he addressed the Incorporated Society of Authors, Playwrights, and Cinematograph Authors in London recently, and formalized his ideal of the perfect book.

"I think," he said, "most people feel that books should be short. Most of us have only odd moments to read, and we've got information or entertainment in a form that we can grip quickly as possible."

### Idea Did Not Work

Stewards on the "Empress of Britain" had arranged to get George Bernard Shaw to sign his name on autograph souvenirs. When our purchases drink in the Cathay lounge one signs a bill. The standards intended to pay for the drinks themselves and keep the bill—until they discovered Shaw was a testator.

### W. N. U. 1978

## England's Poet Laureate

John Masefield Once Worked In United States Factory

If conditions in a certain American rug factory hadn't been "unpleasant" John Masefield might today be a New York physician instead of poet laureate of England.

With a far-away look in his winsome gray eyes, Masefield sat before a group of New Englanders at Mrs. Thomas Lannan's, New York, and discussed the two years he spent as a factory hand and saloon employee in the United States.

He and Mrs. Masefield had just arrived from England.

He took his son, a boy of 37, came to America to work in a Greenwich village saloon for \$10 a month and board; how a friend of the bartender (whom he hoped to see) got him a job in a Yonkers (N. Y.) rug factory at \$10 a day, and how after nearly two years he was given a raise.

"Once I was I had only one great ambition," Masefield continued, still in his burly, serious manner, "that was to get a sword and cut off my nose's head."

"But while working in the factory I decided I would become a doctor, great interest in the part I took in medicine was shown. I had a lot about sleeping sickness."

"But I couldn't stand my surroundings, and so I fled back to England. Just before I started I came across a book of Chaucer's poems, and that's what led to my becoming a poet."

### Medical Care For Settlers

**Saskatchewan Making Provision For Residents Of Northern Areas**

Provision is being now made for medical care and hospitalization of 29,000 persons who migrated from the southern section of Saskatchewan to new settlement areas in the north in 1931 and 1932, according to Hon. E. D. Munro, Minister of Public Health.

British Columbia may increase her lumber exports to the United Kingdom during the coming year to 152,000,000 feet. This compares with 87,000,000 feet shipped during the past year, a gain of more than 70 per cent. or triple that shipped in 1932, when 50,000,000 feet created a record.

Field men of the department of natural resources, said Dr. Munro, are in charge in the new settlement areas and are responsible for reporting cases of sickness and hospitalization.

An additional payment of 25 cents per patient per day for patients from the 1932 drought area in hospitals is the provision will be made by the provincial government from Jan. 1 on, according to Hon. F. D. Munro, Minister of Public Health.

To help meet the total hospitalization charges paid by the provincial government amount to 75 cents per patient per day.

In making this announcement, Dr. Munro amplified on the announcement that travelling expenses to doctors in the 1932 drought area would be allowed to a total of \$39 a month.

### Ruin and Despair

**Object Lesson To Those Who See No Hope in the Future**

The Golden Book Magazine for September gives us a few quotations that should be a lesson to those who insist upon sitting on the top rail of the pasture fence watching for the return of the lost sheep.

"There is scarcely anything around us but rain and despair," said William Pitt in 1783.

"I dare not marry the future is so dark and unsettled," remarked Samuel Wilberforce, who inhabited this Earth between the years 1806 and 1869.

"In Industry and Commerce and Agriculture there is no hope," said Channing in 1849, while the Duke of Wellington in 1851 thanked God that he was to be spared from seeing the consumption of ruin that was gathering around him.

Then think the G. C. B. M. for digging these statements up. Now we can laugh when John Doe, 1932, insists that there never was and never can be again such a depression. Things are going to the eternal bow-wows, and so on etc., . . . or what have you?"

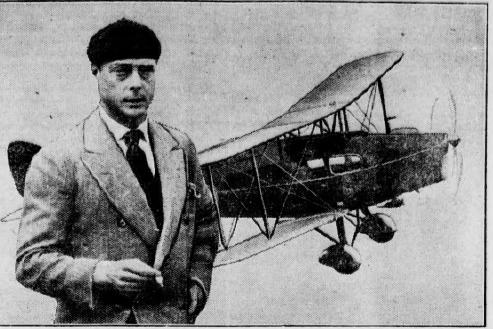

### Money For Hospitals

More than \$10,000 has been raised for Welsh and English hospitals as a result of the exhibition of Princess Elizabeth's miniature house which was built and presented by the people of Wales. According to an official statement just issued in Cardiff all but \$2,625, which was given to British charities, has been distributed among Welsh hospitals. More than 250,000 people paid to see the house.

In addition to its application as a beauty aid, talcum powder is used in 80 different ways in modern trades.

"Yes, I've hunted all over Europe." Really. What had you best?"

## THE PRINCE PURCHASES SPEEDIER CRAFT FOR HIS JAUNTS

Our picture shows the Prince of Wales in the usual informal dress in which he makes his flights, while in the background is a photo of the new "Foxmouth" he has purchased for his private use. The machine is fitted with a 150 h.p. Gipsy Major engine and has a continuous cruising speed of 120 miles an hour. It is a similar type of machine to that which won the King's Cup Race around Britain last July. Painted in royal blue and dark red, colours of the Household Brigade, the machine is reported to be the scene of perfection.

### Business For Coat Province

**B.C. Likely To Increase Apple and Lanolin Exports To Britain**

British Columbia should reap important benefits from the new trade agreement between Canada and Germany. Provincial plants should obtain a share of the \$1,000,000 increased market for wool products with Germany.

British Columbia may increase her lumber exports to the United Kingdom during the coming year to 152,000,000 feet. This compares with 87,000,000 feet shipped during the past year, a gain of more than 70 per cent. or triple that shipped in 1932, when 50,000,000 feet created a record.

Field men of the department of natural resources, said Dr. Munro, are in charge in the new settlement areas and are responsible for reporting cases of sickness and hospitalization.

# Cosgrave Supporter Wants Union Of North And South Ireland

Dublin, Irish Free State.—Political circles were astounded when Richard Mulcahy, former minister of defence and a long-time member of William T. Cosgrave's Cumann na nGaedheal, voted a demand for immediate union of the Free State and Northern Ireland.

The only alternative to union, Mr. Mulcahy said, was "a 20-county republic and endless ill-will."

In a speech he addressed to the British Great Britain for partition of Ireland and denounced the oath of allegiance as a long struggle to keep up segregated legislation by the treaty council.

Parusians expressed the fear his stand might split the ranks of Mr. Cosgrave's party and give added strength to President Eamon de Valera and other forces in the whole-world campaign preceding January 24, next.

"The only alternative to union, his stand might split the ranks of Mr. Cosgrave's party and give added strength to President Eamon de Valera and other forces in the whole-world campaign preceding January 24, next."

"The march respect for British sentiment," Mr. Mulcahy said, "has helped make the 1921 treaty (under which the Free State was constituted) untenable by inclusion in it of the oath of allegiance by a long struggle to keep up segregated legislation by the treaty council."

"The only alternative to a 20-county republic and endless ill-will is union of Ireland."

He declared his belief a new treaty smoothing out political and economic relations between the United Kingdom and the Free State is the only basis on which a lasting settlement of difference between the two countries is possible.

He urged withdrawal of Nationalist members from the parliament of Northern Ireland and opening of an office in London to conduct propaganda leading to force the North into the Free State.

Mr. Cosgrave issued a vigorous denial today that his party was receiving financial assistance from the United Kingdom in its effort to win the election.

The Canadian in a scheduled test's statement was prompted by an article in the *Finnish Free* (Republcan) newspaper that "Britain is intriguing to get Mr. Cosgrave back into power."

Mr. Valera opened his campaign tonight on College Green by telling 20,000 people gathered in the park the oath of allegiance to the king would become law despite the name if the government is returned to power.

## Gets Temporary Credit

Calgary Oaths Funds To Carry On  
In Financial Crisis

Calgary, Alberta.—Charities of temporary credit to maintain city services was obtained by the city of Calgary from the Bank of Montreal and negotiations were under way to work out a definite credit at the bank to aid the city in its financial crisis.

Statements by Mayor Andy Davison and H. C. Francis, local manager of the Bank of Montreal, made it clear the bank was providing only sufficient funds to meet the maturing obligations of the city. Negotiations, however, had reached such a standstill that hope of reaching an impasse regarding the definite amount of credit was high.

## Many Staking Claims

Hundreds Staking Wealth In Manitoba's New Mineral Fields

Winnipeg, Man.—Manitoba's newest mineral fields, God's Lake and Franklin Lake, 350 miles northeast of Winnipeg, have hundreds of prospectors seeking wealth in winter, has attracted attention anew.

Two thousand claims have been staked in the two mineral areas and the rush to record these has swamped the Manitoba mines branch offices. It has been announced a survey would be made immediately and the tangle straightened out.

**Canadian Art Is England**

Ottawa, Ont.—Canadian water colors will be exhibited in at least 12 of the largest cities in Great Britain in the next year and a half, a committee of the National Gallery stated here yesterday.

**Johns-Radium Plant**

Calgary, Alberta.—W. B. Friend, instructor in science and physics at Mount Royal College has gone to Port Hope, Ont., to join the staff of the new radium plant there.

## Cancels Interest

### On Farm Loans

Saskatchewan Taking Measures To Lift Barriers From Farmers

Regina, Sask.—Official announcement was made yesterday by W. L. Anderson, in a province-wide radio broadcast that the government will ask the legislature at the coming session to cancel one year's interest on all Saskatchewan farm board loans in the provinces. The period is to start November 1, 1931, to December 1, 1932.

Those who have paid their interest for the period mentioned will be credited with the payment on their principal.

All arrears of interest previous to November 1, 1931, will be amortized and made payable over a period of five years.

It has also been decided by the government to seek sanction of the legislature to amortize other charges and arrears of principal of November 1, 1932, over a period of 10 years, starting November 1, 1933, and to make November 1, 1935, with interest charged on the amount amortized so far, a half cent per cent, the rate now fixed by the legislature.

A reduction of one and a half percent on amortized interest is being sought by the government. The amount involved in the proposed reduction in the first year plan is approximately \$1,375,717, while the amount of arrears and principal charges being amortized over 10 years is \$974,978.63.

General action by commercial lending institutions easing the rates of extension of interest arrears and payment of principal payments was foreshadowed by the premier.

## Unemployment Insurance

Ontario Government Views Proposal With Sympathy

Toronto, Ont.—The Ontario Government views the proposal of a general unemployment insurance with sympathy and will see to it that it is operated at the earliest possible moment. Premier Frank S. Hartley told delegates at the Canadian conference of the trades and labor last night.

The delegation was composed of T. Moore to Ottawa, president of the Trades and Labor Congress of Canada, and a request that the Ontario Government lead in advancing unemployment insurance at the forthcoming Canadian-Canadian Provincial Conference in Ottawa was the feature of the discussion at the Canadian conference of the trades and labor last night.

The delegation was accompanied by Tom Moore to Ottawa, president of the Trades and Labor Congress of Canada, and a request that the Ontario Government lead in advancing unemployment insurance at the forthcoming Canadian-Canadian Provincial Conference in Ottawa was the feature of the discussion at the Canadian conference of the trades and labor last night.

Another request that Lake be represented at the conference, was a matter for the Dominion Government. Mr. Hartley said the delegation at the conference of the trades and labor last night.

Other requests were:

Amendments to the Liquor Control Act providing for beer-by-the-glass.

## Directors Are Elected

Canadian Aberdeen-Angus Association Chooses Officers for 1932

Vincent, Man.—Directors of the Canadian Aberdeen-Angus Association for 1932, elected by mail ballot, are announced by Secretary W. Crawford here as follows:

Montague Harry Lester, Portage; John McLean, Steinbach;

Saskatchewan—W. J. F. Warren, Belieck; W. D. Lyon, Deveron.

Alberta and British Columbia—S. J. Henderson, Lacombe, Alberta; E. Ward Jones, Calgary; Roy Balkar, Wetaskiwin, Alberta.

The annual meeting of the association will be held at Calgary, March 28.

## Handicaps Stressed

Victoria, B.C.—Handicaps under which Canadian industry would rest if a scheme of state unemployment insurance were adopted in this country and elsewhere on the continent, was stressed before Premier S. E. Tunis, a member of the government by a delegation of British Columbia business men.

## Submerged Continent

Calcutta, India.—An expedition to search for traces of a submerged continent that once may have linked India and Africa will leave here for Aden next August, under command of Colonel R. B. Seymour Swell, director of zoological survey in India.

## Study Wheat Situation

Groups Being Organized In Saskatchewan For This Purpose

Prince Albert, Sask.—After being addressed by C. H. Puckering, who spoke on behalf of the Regina World Grain Show, the local board of trade decided to form a group which will study the wheat situation, collect information and prepare recommendations as to how it is believed the ills of the industry can best be cured. Thirty such groups have now been organized in Saskatchewan.

Mr. Puckering declared other countries were taking similar steps upon similar lines, the purpose being to formulate a plan for action which will be considered at the conference to be held in conjunction with the grain exhibition in the capital city next year. Mr. Puckering expressed the belief it is up to Saskatchewan to impress upon the government the importance of a scheme of protection of agriculture.

Those who have paid their interest for the period mentioned will be credited with the payment on their principal.

All arrears of interest previous to November 1, 1931, will be amortized and made payable over a period of five years.

It has also been decided by the government to seek sanction of the legislature to amortize other charges and arrears of principal of November 1, 1932, over a period of 10 years, starting November 1, 1933, and to make November 1, 1935, with interest charged on the amount amortized so far, a half cent per cent, the rate now fixed by the legislature.

The next developments in the debts will be expected to be in exchange of views through diplomatic channels which may take weeks.

The British view is that the debt negotiations eventually will become a part of the projected world economic conference or will be carried on at that meeting.

## RAILWAY MEN ASK ADJUSTMENT OF EMPLOYMENT

Toronto, Ont.—A petition has been forwarded to Earl Bessborough, Governor-General, on behalf of some 7,000 railway engineers and firemen and 14,000 conductors, brakemen and others pleading for readjustment of hours of employment so that there will be no interference with the distribution of work on the railways.

The petition was sent by L. E. Watson, K.C., of Toronto, for the Canadian Engineering Association which has branches in many centres in Canada and which declares approximately half the railroads in Canada are cut off.

It is pointed out that the average working week is as much as 80 hours a week.

One hundred miles in freight service, is considered equivalent to an eight-hour day. It is requested employment on the railways be restricted to 26 work days a month.

As the Canadian people own the Canadian National and because the Canadian National is in agreement with the Canadian Pacific, it is recommended immediate steps be taken to revise the hours of labour. It is suggested the Esplanade C.P.R. to adopt the plan outlined and if unable to proceed by private negotiation to proceed under the Industrial Disputes Act.

Another request that Lake be represented at the conference, was a matter for the Dominion Government.

Mr. Hartley said the delegation at the conference of the trades and labor last night.

Other requests were:

Amendments to the Liquor Control Act providing for beer-by-the-glass.

## M. BONOUR PUTS HIS HOUSE IN ORDER

M. Paul Bonour, the new Prime Minister of France, was caught by our photographer, leaving the Elysee, Paris, after forming the Cabinet which was accepted by the Chamber of Deputies after M. Herriot had resigned and M. Chautemps had failed to form a government.

W. N. U. 1970

## KING CELEBRATES

King Alexander of Yugoslavia may be harassed by various sections of his country, but the nation united this month to share with him in festivities on his birthday. Even in London, special services were held in the Russian churches to celebrate the happy anniversary.

## Heirs Claim Estate

Seven Persons Bring Suit Against University of Alberta

Calgary, Alberta.—Seven persons, including the University of Alberta, have been named defendants in a suit instituted by seven persons resident in England to recover an Alberta estate awarded the University under the Ultimatum Act.

The plaintiffs are Eliza Mackay, William E. Strell, Arthur Bartlett, Catherine Strell, Arthur James Strell, John Strell and Evelyn May, all of Bromyard, Herefordshire, England, who claim Henry Strell, bachelor, died intestate in December, 1929, worth £1,000.

William Henry Strell died at his home at Del Bosco, Alberta, he left an estate worth \$30,000. Efforts of a trust company, placed in charge, to ascertain whereabouts of relatives failed, and the estate was awarded the university. The plaintiffs claim they were unaware of their brother's death until recently and now ask the estate be awarded them jointly.

## THE OPEN ROAD

Suppose you came suddenly upon two roads. One straight, well-trodden—the other thin and twisting off into undergrowth. If you didn't want to arrive at any place in particular, you might choose the latter. But not otherwise.

Before you, as a buyer, run two roads. One is the road of knowledge of an advertised product. Thousands use it. There is no mystery about it, no doubt, nothing hidden. It leads the way definitely to flour, floor wax, clothing and food stuffs that will give you satisfaction. When you use an advertisement, you use an open road.

When you don't use advertisements, you go the doubtful road. You have only hazy knowledge of the product ahead. No trademark or name to depend upon guides you. The result may or may not be worth the effort. You don't know.

Read the advertisements. Anything widely advertised—breakfast food, hammer, hair tonic—has proved itself good by advertising.

...Advertisements put you on the  
open road to satisfaction

## The Call, Gleichen, Alberta

### NOTICE

The annual meeting of the rate-payers and electors of the Gleichen School District No. 183 will be held in the Gleichen Community Hall on Friday evening, January 27th, 1933, immediately after the dismissal of school. The meeting of the electors of the Town of Gleichen, which meeting will begin at 8 p.m.

Dated at Gleichen, Alberta, this 9th day of January 1933.  
M. MURRAY,  
Secretary.Treasurer.

A man recently wrote a piece explaining how everybody might get rich. But he hasn't explained how everybody might get elected.

There is a growing impression that the public school may take a wider range than mere elucidation of mathematical problems or the unfolding of natural and scientific laws.

It is now held that a boy cannot too early regard himself a citizen of Canada and be taught along with a clear idea of his responsibility, a loyal reverence for the country and its names that have perpetuated it.

Should the first day of every school year be given over to semi-social study of public affairs, Canada has

already very serious problems before him. The children in the schools today must be equipped not only with education, but with the loyalty to solve these problems.

### THE GLEICHEN CALL

A motor car that requires no driver has been invented according to an English paper. But there should at least be a dual control for occupants of the back seat.

The latest luxury added to many large buses is a shower bath. Is it, however, actually something very new? Some pedestrals will tell you that such buses and other motor cars have provided them with a shower bath on many days.

## Beer is Nourishing Food

Professor Gaertner, in his "Manual of Hygiene," says:

"As to quantity of carbohydrates, one quart of beer is equal in food value to three-tenths of a pound of bread, and from the protein standpoint it is equal to two ounces of bread."

## TOWN & DISTRICT

W. W. Brown has made a modern Red River cart with rubber tires. He calls it the "1932 Cart Afoul."

Mrs Rita Bliese of the Holy Cross hospital staff and her brother Leo of Calgary spent a few days at the home of their parents, Mr. and Mrs. Arthur Bliese.

Next Friday evening, January 13, a dance and Tombola will take place at the Neudwirzit Hall under the auspices of the U. F. W. A. A large number of tickets have been sold and there should be a large crowd on hand to join in the fun. Some 14 prizes will be given away to the holders of lucky tickets. The first prize will be a hand made quilt.

Monday afternoon a chinook and a blizzard fought it out for a couple of hours or so. The blizzard came out second best and was pushed back to the polar regions where it belongs.

A skier was talking, telling of skin hunting experiences. It seemed he left camp for a spring about 25 yards away. He carried with him a small pail and a flat dish. He filled both with water and started back. Encountered a bull moose stepped out of the brush. However, he did not run away. He lay down in the ditch like he belonged. At the moose who exhibited a large bruise to give it. Well not to be daunted, along comes Bert James with this tale. One member of his party lagged. Some geese at Stobart. He slung them over his shoulder and started on. The geese were not too heavy to let out three down on the ground while he rested himself. While he was resting, one of the geese came to life, gave a warning "honk" and flew over the lake. Will so nicely page Baron Munchausen.

An increase in the totals of cattle, sheep and swine in Alberta over 1931, is shown in the recent bulletin issued for 1932 by the Dominion Bureau of Statistics. The number of cattle for this year is shown as 225,500, as compared with 215,500 in 1931. The number of sheep and lambs was 835,500 as compared with 759,000 and the number of swine as 1,118,000 compared with 1,062,900. There is a decrease in the number of poultry, although an increase in turkeys shown.

Banana Mail: Welding bolts named their pie the other day the Libe Robertson, of the Libe Tanners' Society, chief blacksmith and Alberta Pacific elevator manager, of Crowsfoot, was unable to identify the pie. Miss Alice Wilson of Gleichen, the lady he has known for sometime that was something troubling him, but did not know what it was serious until they found him doing some interior decorations. Eve yne in this vicinity visited Mr. and Mrs. Robertson many years of happiness, and probably.

The total issue of auto licenses in Alberta for 1932 was 85,405, a decrease of \$151 from 1931. Of the total, 71,425 were for passenger cars and 14,000 for trucks and other motor vehicles. The total for farm licenses was 1539 when the total passed the 180,000 mark.

Highways of blue, red, green, yellow and white are being used by mail boats as easier on the eyes, and less apt to spoil视力. It would appear that aviators soon will not be alone in riding the rainbows.

### CORRESPONDENCE

The Call is not responsible for the opinions expressed by correspondents. Editor Call.

As a shareholder of the Meadow Brook Community Hall and with the views of the majority of the shareholders of the hall, we would ask the directors whether they know where the fire parts of the hall doors went to, and why nothing was done about it. The stage door was stolen before and after a year's absence was taken back and left in the hall. Now the door is missing again and to be returned in case of the police notified, the drums belong to the hall as does the piano and other articles. The parts left are absolutely of no use without the parts missing. We would like the president of the hall to make a satisfactory answer through some source or call a shareholders meeting to decide what is to be done about it.

J. A. GRANT,  
Craggister, Jas. 9, 1933.

## You'd Want GOOD YEAR

tires even if they  
cost dollars more  
than other tires—

**BUT THEY DON'T!**

We know folks who would gladly pay a premium for Goodyear tires. But they don't have to. Good Year cost no more than any other tire would put on your car.

The extra quality in Goodyear is extra value for your money. Their extra mileage, extra safety, extra stamina are a bonus—for which you pay nothing.

Get this extra something! Use Goodyear! Let us show you!

## TO BE RELIED ON

In long experience with United Grain Growers Limited in selling their grain and in buying farm supplies, not only shareholders but all farmer customers have learned that this is an organization that is to be relied on.

Both the Company's facilities and its purpose to give the best possible service to farmers are unsurpassed.

Deliver Your Grain to  
**UNITED GRAIN GROWERS LIMITED**
